Assembled using the world-class technologies the new TATA Prima is a powerhouse that really takes your business places. Powered by robust Cummins engine combined with Eaton transmission that generate up to 1550Nm of torque for unlimited power, supported by an efficient combination brake system to enhance safety. A breakthrough cab design for better driver comfort and an ultra-high strength chassis for higher payloads. Tata Prima provides a transportation solution that strikes above its class.

A Good Head on Its Shoulders The aerodynamically designed cab doesn't just look good, but helps reduce drag resulting in higher speed and better fuel efficiency.

A Body Built to Perform The Prima has the higher ground clearance at 309mm, it's suitable for all kinds of roads, increasing its versatility.
